## NOTAS Y OBSERVACIONES

## CUADRO XIV-6

- (1) Cálculo según Resolución 47/2002 del Ministerio de Economía.

"A partir del día 7 de cada mes y el último día del mes, el Coeficiente de Estabilización de Referencia (CER) se construirá en base a la tasa media geométrica calculada sobre la variación del Índice de Precios al Consumidor (IPC) del mes anterior" (Resolución 47/2002 del Ministerio de Economía).

"Para la construcción del CER para los días comprendidos entre el primero de cada mes y el 6 del mismo, se empleará la tasa media geométrica calculada sobre la variación del IPC entre el segundo y el tercer mes anterior al mes en curso" (Resolución 47/2002 del Ministerio de Economía).

Para obligaciones de pago periódico, el monto a ajustar a la fecha de cada vencimiento se recalcula dividiendo el valor del "CER" del día anterior al vencimiento del pertinente concepto por el valor del "CER" del día anterior al vencimiento inmediato anterior (Comunicación "A" 3507).

## CUADRO XIV-7

- (1) Tipo de cambio de referencia obtenido por el Banco Central de la República Argentina a partir de las cotizaciones del tipo de cambio de compra y venta del dólar estadounidense para operaciones liquidables en pesos y dólares estadounidenses, en la fecha de la cotización, representativas de las condiciones predominantes en el mercado de cambios mayorista. El procedimiento de cálculo previsto se encuentra descrito en la Comunicación "A" 3500 del 01.03.2002

## NOTAS Y OBSERVACIONES

- (1) Total de préstamos de efectivo otorgados por la totalidad de las entidades financieras a residentes en el país. No incluye los préstamos de títulos valores o de otros activos financieros ni préstamos de efectivo con garantía de esos valores.
- Comprende los derivados de adelantos en cuenta (corriente u otras a la vista) o de la compra de documentos, los instrumentados bajo la modalidad de documentos a sola firma, documentos descontados, los préstamos hipotecarios, prendarios, personales y a titulares del sistema de tarjetas de crédito y cualquier otro préstamo de efectivo no comprendido en los anteriores.
- Los importes corresponden a la distribución del total de préstamos consignado en el balance mensual de acuerdo con la participación relativa determinada para cada actividad económica y para cada distrito geográfico según la información "Préstamos a residentes en el país clasificados por la actividad económica principal del receptor" (tarea SISCEN-0014) suministrada por la totalidad de las entidades financieras de acuerdo con las especificaciones metodológicas establecidas.
- Tales especificaciones pueden ser consultadas en el texto ordenado del Sistema CENtralizado de requerimientos informativos de la Subgerencia de Estadísticas Monetarias y Financieras (Com. "A" 2803 y complementarias) que puede ser accedido en la página de Internet del Banco Central de la República Argentina especificando la dirección <http://www.bcra.gov.ar/pdfs/estadistica/siscen1.pdf> (Tarea SISCEN - 0014) o seleccionando las siguientes opciones en la navegación manual a través de la página [www.bcra.gov.ar](http://www.bcra.gov.ar): estadísticas | monetarias y financieras | metodologías del pedido de información.
- (2) Total de préstamos de efectivo otorgados por la totalidad de las entidades financieras a residentes en el país que se encuentren en "situación normal". No incluye los préstamos de títulos valores o de otros activos financieros ni préstamos de efectivo con garantía de esos valores.
- Se considera que un préstamo está en condición normal cuando, habiendo sido otorgado a un deudor clasificado en categoría 1. ("en situación normal" de la clasificación de deudores comerciales y "cumplimiento normal" de la clasificación de créditos para consumo o vivienda, establecidas por el BCRA), no registre atrasos mayores a 31 días. Por lo tanto no se incluyen los saldos de préstamos a deudores no clasificados en categoría 1. ni los préstamos que presenten atrasos de más de 31 días.
- Comprende los préstamos derivados de adelantos en cuenta (corriente u otras a la vista) o de la compra de documentos, los instrumentados bajo la modalidad de documentos a sola firma, documentos descontados, los préstamos hipotecarios, prendarios, personales y a titulares del sistema de tarjetas de crédito y cualquier otro préstamo de efectivo no comprendido en los anteriores.
- Los importes corresponden a la distribución del total de préstamos consignado en el balance mensual de acuerdo con la participación relativa determinada para cada actividad económica, para cada distrito geográfico y para los préstamos en situación normal según la información "Préstamos a residentes en el país clasificados por la actividad económica principal del receptor" (tarea SISCEN-0014) suministrada por la totalidad de las entidades financieras de acuerdo con las especificaciones metodológicas establecidas.

- (3) Tasa de interés promedio aplicada en el mes de la información en la concesión de préstamos de efectivo a tasa fija y en el cálculo de los intereses correspondientes a los saldos de los adelantos en cuenta o de las financiaciones del sistema de tarjetas de crédito.
- La tasa de interés informada por cada entidad financiera corresponde al promedio ponderado por monto del total -cualquiera sea su instrumentación- de los préstamos concedidos en todo el mes (resultado de dividir la suma de los productos de los montos y de las tasas individuales por la suma de los montos), considerando: el promedio de los saldos diarios del mes, para el caso de los adelantos; el saldo adeudado de la antedúltima liquidación (según lo determinado en el extracto enviado en la última liquidación), tratándose de cuentas del sistema de tarjetas de crédito; o el capital efectivamente desembolsado en el mes para toda otra operación de préstamo (deduciendo los intereses documentados).
- Para obtener un valor promedio para todas las entidades financieras -para cada actividad económica y para cada provincia-, las tasas de interés se han ponderado por el saldo de los préstamos vigentes (según lo informado por cada entidad financiera de acuerdo con lo detallado en el párrafo anterior).
- Como consecuencia de tal metodología de cálculo, la tasa de interés indicada en el cuadro puede ser interpretada como la tasa de interés aplicada en el mes de la información por las entidades financieras, otorgantes de préstamos en ese período, que mayor participación mantienen (por el total -cualquiera sea su instrumentación- de préstamos concedidos en ese mes o por la vigencia de los concedidos en meses anteriores) en la financiación a la actividad económica de que se trate.
- (4) Actividad económica principal del receptor del préstamo.
- Para determinar la actividad principal del receptor de la asistencia financiera las entidades financieras deben tener en cuenta la mayor cantidad de elementos de juicio (disponibles para la apertura de la carpeta de crédito) de manera de asegurar una correcta clasificación. El valor agregado, los ingresos brutos, son medidas idóneas para proceder a la clasificación que se requiere, pero no son
