A fin de cada mes debió imputarse a las cuentas de "Resultado Monetario..." el importe positivo o negativo que surgió de aplicar el coeficiente de ajuste por inflación sobre las partidas involucradas al inicio del período de que se trate. También se imputó a estas cuentas la reexpresión a moneda de cierre de sus saldos iniciales. La contrapartida de las imputaciones mencionadas se reflejó en la cuenta "Ajustes al Patrimonio - Ajuste por reexpresión de partidas".
- Incluye ajustes devengados.

El cambio tiene relación con el tratamiento dado a los pases activos y determina un aumento en las reservas internacionales -por la inclusión de los bonos comprados mediante pases-. Por lo expuesto, en la serie diaria se incluyen los valores correspondientes a la nueva metodología de exposición desde el 31 de octubre de 2001.

Las especificaciones metodológicas de cada concepto pueden ser consultadas en el texto ordenado del SISTEMA CENTRALIZADO de requerimientos informativos de la Subgerencia de Estadísticas Monetarias y Financieras (Com. "A" 2803 que puede ser accedida en la página de Internet del Banco Central de la República Argentina -[www.bca.gov.ar](http://www.bca.gov.ar)).

En el caso de no contarse con información contemporánea para alguna entidad, se repite el último dato conocido.

En función de este último aspecto, se incorpora la representatividad del total de depósitos (para cada sector y moneda) del conjunto de las entidades que no hayan presentado información contemporánea para las fechas incluidas.

Dado el exiguo plazo que tienen las entidades para cumplir con la transmisión electrónica de los datos y la obligatoriedad de concretar transmisiones rectificativas toda vez que tomen conocimiento de su importancia, las actualizaciones informativas de datos previos son frecuentes y pueden llegar a ser significativas por razones de estacionalidad en la concentración de los flujos financieros.

Se refleja la reclasificación de los depósitos judiciales que las entidades financieras deben realizar, desde el 31 de agosto de 2001, de acuerdo con lo indicado en la Com. "A" 3349.

En el caso de no contarse con información contemporánea para alguna entidad, se repite el último dato conocido.

Dado el exiguo plazo que tienen las entidades para cumplir con la transmisión electrónica de los datos y la obligatoriedad de concretar transmisiones rectificativas toda vez que tomen conocimiento de su importancia, las actualizaciones informativas de datos previos son frecuentes y pueden llegar a ser significativas por razones de estacionalidad en la concentración de los flujos financieros.
